Information on ISO 22000:2018 and GMP+FC scheme 2020 services

Dear Sir/Madam,

We would like to inform you again that from 17 July 2017 Rail Cargo Hungaria Zrt. is able to transport bulk grain consignments in accordance with the requirements of ISO22000 Food Safety and GMP+2020 FC Feed Safety.

The differentiation of the use of bulk consignments of cereals for food and feed purposes is a fundamental requirement by ISO 22000 and GMP+2020 FC.

To use this service, you must complete and return to RCH the Statement for the use of freight wagons for transporting bulk food- or feed, attached to our letter. Once completed, please fill in the details of food or feed consignments in the activated interface of (E-Freight / Wagon Order / Send wagon order) RCH Customer Service.

The use of the service is basically free of charge, unless bulk grain consignments that require a special service (e.g. requesting a freight wagon with a different cleanliness than that described in the IDTF code system, information on the last three consignments, etc.).

As in the past, we will continue to forward consignments of our customers who have not completed the Statement in accordance with the General Terms and Conditions, with the exception that the conditions resulting from the ISO 22000 standard and the requirements of GMP+2020 FC (e.g. allergen monitoring for food shipments, use of drinking water quality water for cleaning the wagon for feed consignments, etc.) will not be applied.

You can complete the Statement at any time in the future. The current Statement can be downloaded from the RCH website, where you can find a short summary of the RCH food and feed safety system.

In order to achieve our food and feed safety objectives and to minimise and eliminate increasing food and feed safety risks, please assist us in our work - even without using a separate service - by completing the Declaration Form and indicating the intended use of the bulk consignments of cereals you are sending.

Yours sincerely,

András Nyíri
Director of Operations

Bernadett Balázs
Sales Operation director
