Date  
15.11.2024

Dear Partner,

We hereby inform you that, **from 1 January 2025**, the definition of *performance date* will change as follows:

Type of traffic (on Hungarian sections)	Description
<b>Domestic and import traffic</b> (RCH as contracting carrier)	In domestic and import traffic, the performance date is the time of arrival of the consignment at the station assigned to the place of delivery (time indicated in box 59 of the consignment note for domestic and CIM traffic, box 27 of the consignment note for SMGS traffic and box 67 of the consignment note for CIM/SMGS traffic).
<b>Domestic and import traffic</b> (not only RCH as contracting carrier)	<b>For domestic and import traffic, the performance date is the date of delivery of the consignment to another railway undertaking.</b>
<b>Export and transit</b> (only RCH forwarding)	<b>For export and transit traffic, the performance date is the date of the border exit.</b>
<b>Export and transit</b> (not only RCH forwarding)	<b>For export and transit traffic, the performance date is the date of delivery of the consignment to another railway undertaking.</b>

The performance date is defined in Price List Section 7.

For Partners of Rail Cargo Hungaria Zrt., the date of border exit is available electronically at the e-Freight module 'Freight Info'. Dates are available under 'Wagon events – 'Wagon details'. In case you do not have access to e-Freight, please contact [efreight@railcargo.com](mailto:efreight@railcargo.com).

In addition to the above, the *invoice issuance procedure* will also change, which means that Rail Cargo Hungaria Zrt. will issue invoices not only on working days, but on all calendar days (including working days, holidays and public holidays).

If an item dispatched before 1 January 2025 is invoiced on or after 01 January 2025, the previous rules will still apply.

Yours sincerely,

Dr. Imre Kovács  
Chairman of the Board of Directors, CEO

Csaba Raisz  
Member of the Board of Directors, CFO
