Subject: Wagon usage charges

Dear Partner,

We would like to inform you that Rail Cargo Hungaria Zrt. (hereinafter: RCH) in case the consignment is forwarded in Croatia by HŽ Cargo (2178) and the wagons are owned and operated by RCH will only fulfil the wagon order and accept the consignment for carriage in transit through Croatia (Croatian transit) or in transit to Croatia, if the freight payer for the Hungarian line makes the following statement on the consignment note in box 7 (Consignor's declarations) that he bears to pay the wagon usage charges as per Annex 1:

„SDS/1164/22 tartalmát elfogadom“
(It means: I accept the contents of SDS/1164/22)

In absence of other agreement, the wagon usage charges will be settled as per Additional Charges under Code 28.1.

If the wagon usage charges under code 28.1 will occur more than one time during the transport, RCH will display it in the invoice in aggregate form as a single amount.

It is valid for all shipments, received after 22 April 2022 at 00:00 (pulled from the loading area) and for all goods until further notice of cancellation.

When calculating the freight costs for the above-detailed traffic, please take the wagon usage charges for RCH-owned and RCH-operated wagons into consideration as well.

Thank you for your understanding and cooperation.

Annex:

Nr. 1: Wagon usage charges

Best regards,

Nyíri András
Director of Operation

Balázs Bernadett
Head of Sales Operation
